Algebra Reflection Sheet

Take a few minutes to think about some of your behaviors and practices in math class. Do you consider your practice in class to be successful? Do you think you can be more successful? Is there anything that you would like to do differently? What will you continue to do that is the same?

Part I – Each question asks about a behavior or practice from this year so far. Circle a number from 0 to 5 with 0 being the lowest and 5 being the highest. Then, write a statement about why you think you were successful, or what you are going to do to change.

a) I did my homework completely all the time

0 1 2 3 4 5

b) I understood my homework all the time

0 1 2 3 4 5

c) I paid attention in class all the time

0 1 2 3 4 5

d) I always understood what was going on in class

0 1 2 3 4 5

e) I always asked questions if I had them

0 1 2 3 4 5

f) I always was prepared for class (textbook, ruler, pencil, binder, notes)

0 1 2 3 4 5

g) I was always prepared for tests and quizzes

0 1 2 3 4 5

Part II - list 3 behaviors from this trimester that are good; things that you want to keep

doing for the rest of this year in math class: I want to keep...

- 1) Studying
- 2) Practicing problems if I need to
- 3) Putting a lot of effort into my work.

Part III - list 3 behaviors from this trimester that hurt you; things that you would like to

do differently: I would like to...

- 1) Improve on showing my work neatly.
- 2) Making logical math answers
- 3) Ask Beth more questions.
